HYACINTHS

Fragrant Bedding Hyacinths

We know of no surer indication that spring has finally arrived than the sweet, clean fragrance of a bed of Hyacinths after an April shower.

This superb mixture is hand-made from named varieties so that an even balance of colors is assured.

You don't have to make solid beds, spot them at intervals in the perennial border. See list for colors and varieties.

30c each, $2.65 per doz., $18.00 per 100

French Roman Hyacinths

The flowers are delightfully fragrant, and each bulb will throw up three to four spikes. For forcing, plant three or four bulbs in a 5-inch pot and keep in a cool dark place until well rooted. May also be grown in pebbles and water. Does best in moderate heat. See list for colors.

25c each, $2.50 per doz., $17.50 per 100

Chinese Sacred Lily

These also are known as Joss Flower, Flower of the Gods, or Soy Sin Far. Botanically they are *Narcissus Tazetta orientalis.* More vigorous than the other two with pure white perianth and a golden cup. They have a rich and distinct fragrance.

FIELD SEEDS

for Cash and Feeding Crops--- for Soil Improvement

PERSIAN CLOVER—A very valuable clover for the South. Furnishes splendid grazing for cattle from December until June, and yields 2 to 3 tons of rich nutritious hay per acre, which can be easily cut and cures very quickly. Is a splendid soil builder. Sow 6 to 8 pounds per acre from September to November, and cover lightly. Reseeds itself even when closely grazed. Makes an upright growth 2 to 3 feet high. Will stand wetter lands than most clovers. Seed should be inoculated with NITRAGIN. See page 10. **Price: Lb. 90c; 5 lbs. $4.00 postpaid. Write for prices on larger quantities.**

SWEET CLOVER OR MELILOTUS—Also known as Bokhara Clover. As a land-builder it has few equals. It is fine for raising bees and to build up your poor land. Sow 12 pounds per acre in February planting. **Lb. 55c; 5 lbs., $2.25, postpaid.**

YELLOW BLOSSOM SWEET CLOVER—The Yellow Blossom type is very similar to that of the White Blossom. For those who wish to use Sweet Clover for pasture, hay and bee purposes, we would advise the use of the Yellow Blossom type. **Lb. 35c; 5 lbs. $1.35, postpaid. Write for prices on larger quantities.**

HAIRY PERUVIAN ALFALFA—Tall, vigorous growing and will live as long as any type where the winters are not too cold and where there is summer moisture. Gives you more cuttings than any other type and after each cutting it recovers rapidly. Sow during September and October in thoroughly prepared, well drained soil, broadcast or in drills at the rate of 15 to 20 pounds per acre. Seed should be inoculated with NITRAGIN. **Prices: Lb. 60c; 5 lbs. $2.50, postpaid. Write for prices on larger quantities.**

WINTER LAWN GRASS SEED
for Beautiful Southern Lawns

Lawn of Winter Grass

ITALIAN
RYE GRASS
AMERICAN GROWN

The winter grass for all the South. Superior to foreign grown Italian and English Rye Grass seed. Our fancy seed is heavier and more plump, full of vitality, quick to start and strong in growth. It is a fast-growing annual grass with long flat leaves, growing in tufts if left uncut. It is valuable to dairymen for winter and spring grazing, but its great use is for winter and spring lawns.

Scratch seed in Bermuda sod for green lawn until the Bermuda comes out again in summer. By itself it makes a delightful green lawn, in sun or shade, all fall, winter and spring. If stands repeated mowing on lawn or golf green. Sow 10 lbs. per 1,000 sq. ft. (50x20 ft.) for lawns; 50 lbs. per acre for pastures. **Prices: Fancy Seed for Lawns—Lb. 40c; 5 lbs. $1.75, postpaid. Not prepaid—10 lbs. $1.80; 25 lbs. $4.15; 100 lbs. $14.00. Prices: For Grazing—Lb. 35c; 5 lbs. $1.50, postpaid. Not prepaid—10 lbs. $1.75; 25 lbs. $3.95; 100 lbs. $13.50.**

AUSTRIAN WINTER PEAS
DOUBLES YOUR
CORN and COTTON YIELDS

Rapidly climbing to the top as the leading soil-builder and winter crop throughout the entire South, because of its large, heavy growth on practically all soils and its ability to resist winter freezes. Matures two weeks ahead of Vetch and makes a splendid temporary pasture in late winter. Furnishes grazing for your livestock, and decays rapidly when plowed under.

Sow Austrian Winter Peas during September and October, in drills, at the rate of 30 pounds per acre and cover 2 inches. May also be sown broadcast and disked in. Sowing the seed broadcast in cotton middles and straddling the rows with a two-horse cultivator with the disk hillers or plows is a very good method of covering. **Lb. 30c; 5 lbs. 80c, postpaid. Not prepaid: 10 lbs. $1.10; 25 lbs. $2.35; 100 lbs. $7.75.**

HAIRY VETCH
An Outstanding and Reliable Soil Builder

Poor soil can soon be made rich with it. Planted combined with small grain, such as Oats and Rye or seeded alone makes splendid winter and spring pasturage. Stands severe winters without injury, grows on practically all types of soil. Vetch is usually turned under in early April. A good crop is equivalent to 250 pounds or more of Nitrate of Soda and valuable humus is put into the soil. Planted September to December, sow 20 to 25 pounds per acre alone, 15 pounds with small grain. Inoculate with NITRAGIN C. **Lb. 45c; 5 lbs. $1.80, postpaid. Not prepaid: 10 lbs. $2.40; 25 lbs. $5.90; 100 lbs. $20.00.**

COMMON VETCH

Common Vetch prefers sandy loam, well drained, but will produce a good crop on most any other soil where water does not stand. When planted alone it requires 30 to 40 lbs. to the acre, half that quantity is sufficient when sown with small grain. Seed should be inoculated with Nitragin. **Lb. 35c; 5 lbs. $1.35, postpaid. Not prepaid, 10 lbs. $1.20; 25 lbs. $2.90; 100 lbs. $10.65.**
